Overview

Computer Science undergraduate specializing in frontend development, with practical experience in React.js, component-based architecture, and responsive design. Built and deployed multiple web applications, including production-level projects during a professional internship. Skilled in writing clean, maintainable code and collaborating in team environments using modern development tools.

Education

International Institute of Management of Science (IIMS)

Naxal Bhagwatibahal, Kathmandu

Bachelor of Computer Science (HONS)

August 2022 - Ongoing

Pinnacle Academy

Lagankhel, Lalitpur

Intermediate +2 Science (Physics Major)

2019 - 2021

Work Experience

Frontend Intern – Leafclutch Technology Pvt. Ltd.

(3 months)

- Developed and maintained responsive user interfaces using React.js and Tailwind CSS
- Built reusable and modular UI components, improving code maintainability and scalability
- Collaborated with team members using GitHub for version control and code integration
- Enhanced website UI/UX by improving layout structure and ensuring design consistency across pages
- Worked on a live production website, gaining experience with real-world development workflows
- Assisted in testing and debugging to ensure smooth functionality across different devices and browsers

Projects

Leafclutch Technology:

Live Link: <https://leafclutch-react-clone.vercel.app/>

- Developed a production-level company website using React.js and Tailwind CSS
- Built reusable and modular UI components to improve scalability and maintainability
- Implemented responsive design ensuring compatibility across devices and screen sizes
- Structured components and layout for better performance and clean code practices
- Deployed the application using Vercel

Portfolio Website:

Live Link: <https://presha-shrestha-portfolio.vercel.app/>

- Designed and developed a personal portfolio using React.js, HTML, CSS, and JavaScript
- Showcases projects, skills, and GitHub repositories with a clean and responsive UI
- Implemented component-based architecture for better code organization

BrightMind – Mental Health Support Website:

Live Link: <https://bright-mind-zeta.vercel.app/>

- Developed a static web application using HTML, CSS, and JavaScript
- Designed user-friendly layouts focused on accessibility and ease of navigation
- Focused on clean UI design to improve content readability and engagement

RevAI- Fake Review Detection & Sentiment Analysis Web Application:

GitHub: <https://github.com/Capstone-sGroupProject/RevAicapstone>

- Designed the user interface and experience for a web application that detects fake product reviews and analyzes sentiment
- Created intuitive dashboards and interactive components for better user engagement
- Ensured a seamless and visually appealing design for smooth user interaction

Skills

Technical:

JavaScript, SQL, HTML, CSS | React.js, Node.js, Tailwind CSS | MongoDB, MySQL | VS Code, GitHub, Postman, Figma | UI/UX Design

Professional:

Communication | Problem Solving | Teamwork | Creativity | Time Management

Training and Certifications:

Certifications:

MERN Stack Development	February 17, 2025
Outstanding Performance Certificate – Statistical Inference & Modelling	IIMS College – Aug 2024
